ATMOSPHERE DURING THE AGM OF GDF SUEZ

28.04.2015, PARIS

By Sylvia Cleff Le Divellec & Caroline Bommart

GDF-SUEZ (ENGIE) has warmly welcomed the project that represents the great attention they give to equality between women and men. Questions and answers were prepared during a preliminary interview with the head of investor relations. Contacts had been established and a Board member expressed her interest in the project. During the Annual General Meeting (AGM), on 28.04.2015, the audience received well the question about ENGIE's strategy to increase the representation of women in responsibility positions.
